ATLAS

EPOXY

ANTENNA OMNI DIRECTIONAL 2 5/8" \square 60
137-174 MHz

Power Handling: 500 W
Nominal Impedance: 50 Ω
SWR: < 1,4:1
Connector Type: N-Female
Gain: 3 dbd
Wind load: 180 km/h
Mounting U-bolt: 63mm Mast diam.

Mounting: The antenna can be attached in three ways

1. On the tip of a tubular mast of 40 - 54 mm diameter (connecting cable runs inside the mast).
2. Laterally at the tip of a tubular mast of 20 - 54 mm diameter (connecting cable runs outside the mast).
3. On the side

Base: Aluminum cast 6082 T6 80 Breenel.
Mounting U-bolt and all screws, nuts and radiator:
Stainless steel.
